Reşitpaşa Mahallesi Katar Caddesi İTÜ Kampüsü Arıoğlu Yurdu Sarıyer/İstanbul

SOFTWARE DEVELOPER

My passion for technology and curiosity for learning have driven me to deepen my skills in software development. While working on projects using technologies like React, Python, and C++, I have focused on honing my expertise, particularly in web development and frontend engineering. I approach problem-solving with patience and determination and strive to create synergy within teams.

EDUCATİON & CERTİFİCATİONS

Istanbul Technical University
Computer Engineering 2021 - 2026 (Estimated date)

LANGUAGES

Turkish - Native
English - C1
Spanish - Beginner

KEY COMPETENCİES

Frontend Development	Image Processing	UI/UX Sensitivity
Problem-Solving Skills	Project Management	Analytical Thinking
Team Collaboration	Version Control	Adaptability

PROFESSİONAL EXPERİENCE

Derspresso.com   **Jan 2022 - June 2022**
Freelance Content Creator
We aim to provide students with free and ad-free access to mathematics topics and sample questions on our website called Derspresso. In this project, I took part in the preparation of the topics and questions and also some designs.

Parkera   **July 2024 - Aug 2024**
Web Development Intern
Parkera is a technology company that specializes in providing innovative digital solutions and high-quality web services. During my web development internship, I collaborated with the creative team to contribute to modern web design and development processes. I worked with technologies such as HTML, CSS, and JavaScript to enhance the design and functionality of web pages. Additionally, I assisted in maintaining web applications and worked on improving user experience. My time at Parkera allowed me to develop my technical skills while gaining valuable experience in a professional work environment.

Atalan UAV Team   **Feb 2024 - Still Working**
Head of Software Department
In the UAV team we have established, we are designing a fighting unmanned aerial vehicle for the Teknofest competition. Our department is divided into two: autonomous flight and image processing. My role in the team is to contribute to the development of both teams by writing code, to organize the team.

CERTİFİCATİONS

React 101 - 201 - 301 - 401
Turkcell Geleceği Yazanlar

HTML & HTML5 - CSS
Turkcell Geleceği Yazanlar
